Welcome to the 2011 MGH Radiology Radiological Society reunion
HAMPTON SYMPOSIUM
MGH Bicentennial

Reginald Greene ’65
For The Organizing Committee
The MGH Radiological Society: Aims

• To honor our many trainees and their accomplishments
• To familiarize alumni with new facilities & developments in our department
• To increase interchange between the department, faculty and alumni
• To encourage professional and social interaction among our alumni
• To provide our alumni with access to the vast teaching resources of our department
2011 Organizing Committee
under James Thrall

- Reginald Greene, chair
- Karl Benedict
- Milton Guiberteau
- Robert Harris
- Murray Janower
- Susanna Lee
- Theresa McLoud
- Pearse Morris
- Constantino Pena

- Sanjay Saini
- Raul Uppot
- Jack Wittenberg

- Alison Wright, Dir. Physician Operations
- Carmen Alvarez, Mgr Faculty Development
- Catherine Colt, Alumni Coordinator
Class Agents

• Stan Bohrer
• Jack Wittenberg
• Reginald Greene
• Richard Heller
• Jeffrey Rudnick
• Larry Kotner
• Bob Kane

• Joe Stock
• Bob Harris
• Herschel McGinnis
• Pearse Morris
• Barry Stein
• Karl Fan
• Mark Montgomery
Class Agents

- Mukesh Harisinghani
- Vernon Chapman
- Elena Korngold
- Mykol Larvie
- Rivka Colen
- Chris Kagay
- Ess Abdel-Dayem
Alumni travelling the longest distance:

• Oswald Graf	Steyr, Austria
• Ernst Rummeny	Munich, Germany
• Luiz Felippe Mattoso	Rio de Janeiro
• Gerhard Lechner	Vienna, Austria

Society Webpage

http://massgeneralimaging.org/alumni/
The MGH Radiological Society has been organized to advance professional, scientific, and medical interactions between graduates of Mass General radiology training programs and their alma mater, as well as to foster greater communication among the graduates themselves.

To this end, the society will operate this web site, where members can volunteer contact information with other professional details, and where they can gain access to monthly issues of the Radiology Rounds email newsletter, which presents topics of specific interest to radiologists. In addition, we will periodically offer a short medical education course that includes the Hampton Lecture, an invited member lecture, and other presentations directed toward radiologists. This course will provide an opportunity for members to meet and interact in person.

Our underlying goal is to provide the members with a more intimate and continuing connection to Mass General Imaging and thereby to benefit from its strong teaching resources.
